

WSC Laser Hire

The club has two well equipped Lasers available to hire for racing, club training or simply trying out. Each boat has three sail sizes- 4.7, radial and standard.

- Booking via Toby - 07801 494822, tmtracey@hotmail.com.
- also Class Captain - Clive 07851 028110

Pricing

- £10 per race day
- £5 for a Wednesday evening race / other sailing
- Please pay electronically- WSC Account 00121506, sort 30-99-85
- Alternatively cash on the day to Toby or Clive

Where are they?

- The boats are closest to the shed on the right going into the laser park from the dinghy park. They are marked 'WSC 1' and '2' on their transoms.

To sign on for races

- Use sail numbers "WSC 1" or "WSC 2"

Centreboard / rudder

- These are kept in the club's outboard store, next to the metal outside stairs.
- Foil bag for boat 1 is grey, 2 is blue.
- If it's locked, the keys are in the Crow's Nest hanging on the right hand wall on a wooden block marked 'Laser'. Please return keys to Crow's Nest immediately as someone else may be hiring.

Rigging Instructions

(A copy is also in the foil bag)

1. Move kicker onto the preferred size lower mast (standard or radial or 4.7)
2. Put upper mast into lower mast and slide the sail on – then put battens in. Put mast up.
3. Slide boom onto gooseneck

4. Hook outhaul onto sail. Run the grey outhaul line forward along the starboard side of boom to the block on gooseneck, then down to block and cleat on the deck. Tie off a large bowline for a handle
5. Outhaul Velcro strap – push both loose ends together through the eye. The soft end wraps around boom (under the outhaul), through the buckle and back on itself..
6. Outhaul bungee – take it through sail eye and back onto the bungee's hook
7. Cunningham- the blue rope goes up through sail eye and back down and tied around the kicker bracket. The other Cunningham rope goes down through block on the top of kicker, back up to its own block and down to block/cleat on deck. Tie a bowline handle.
8. Kicker – loosen and hook onto boom
9. Tiller goes under the traveler!
10. Centerboard bungee goes from the bow eye, through the string loop beside the mast – and onto the centerboard handle when afloat

Derigging – take off and roll up sail. Undo the outhaul, cunningham and kicker from the spars.
Close the self-bailer.
