

Pursuit Race of 70 minutes

2025 WSC Handicap

NOTES:

- 1) You can use the Relative Start Time shown in the table below for a pursuit race of 70 minutes. If you want a longer or shorter pursuit race you can use the calculator at <http://bit.ly/wscquick2> to work out the new Relative Start Times
- 2) As the 70 minute finishing time approaches, form a moving line with the Committee Boat and a RIB each side of, and perpendicular to, the course of the leading boat.
- 3) Should this occur on a windward leg, a line of sufficient length should be made perpendicular to the wind
- 4) At 70 minutes stop both the Committee Boat and the RIB to establish the finishing line, noting the finishing order of all competitors

Pursuit calculator				
1) Enter start time and length of race		3) Record start times		
Start time	13:00:00	Class	Start time	Time from first start
Length of race (minutes)	70	Cadet	13:00:00	0 mins
Finish time	14:10:00	Topper 4.2	13:01:00	1 min
Rounding (seconds)	30	Topper	13:03:30	3 mins + 30 secs
		Mirror	13:04:00	4 mins
		ILCA 4 / Laser 4.7	13:11:30	11 mins + 30 secs
		Dragonfly	13:12:30	12 mins + 30 secs
